

Connecticut's Energy Efficiency Programs are funded by a Charge on Customer energy bills. The Programs are designed to help customers manage their energy usage and cost.

## Residential Financing for Energy Efficiency CHIP Contractor Bid Estimate Specification Worksheet

### Eligible improvement measures and qualifying criteria as of January 1, 2012

The Contractor must provide printed documentation verifying all installed measures meet or exceed the efficiency requirements and comply with additional criteria as indicated below. See opposite side of this Worksheet for Requirements and Criteria.

Improvement Measures	Rate	Manufacturer	Model/Type	Requirements - see other side	Price
High Efficiency Insulation only - not bundled (loan from \$1,000-\$2,500 - see requirements)	0%			___R Ceiling ___R Wall	
High Efficiency Insulation (Natural Gas/Electric heated homes)	2.99%			___R Ceiling ___R Wall	\$ -
ENERGY STAR® Ductless Heat Pumps	2.99%			___SEER ___EER ___HSPF	\$ -
Electric Heat Pump Water Heaters - ENERGY STAR®	2.99%			___EF	\$ -
Tankless or Indirect Natural Gas Hot Water Heaters - ENERGY STAR®	2.99%			Tankless ___EF with Electronic Ignition Indirect gas boiler ___AFUE	\$ -
Central Air System - ENERGY STAR®	4.99%			___SEER or ___EER <input type="checkbox"/> QIV System <input type="checkbox"/> Split <input type="checkbox"/> Single pack'd	\$ -
Air to Air Heat Pump - ENERGY STAR®	4.99%			___SEER ___EER ___HSPF <input type="checkbox"/> QIV System <input type="checkbox"/> Split <input type="checkbox"/> Single pack'd	\$ -
Natural Gas Furnaces and Boilers - ENERGY STAR®	4.99%			Furnace ___% AFUE/ Air Handler EAE ___% / Boilers ___% AFUE Temperature reset ___ or boiler purge control ___	\$ -
Windows (Natural Gas and Electric heated homes only)	4.99%			Primary Envelope Only ___ U-factor ___ Replace single pane/no storm ___	\$ -
<b>Market Rate Measures - For Oil or Propane Heated Homes and Geothermal - CL&amp;P Customers Only</b>					
High Efficiency Insulation (Oil or Propane)	9.25%			___R Ceiling ___R Wall	\$ -
Furnaces and boilers / OIL fired - ENERGY STAR®	9.25%			Furnace ___%AFUE / Air Handler EAE ___% / Boiler ___%AFUE / Temp reset ___ purge control ___	\$ -
Furnaces and boilers / PROPANE - ENERGY STAR®	9.25%			Furnace ___%AFUE / Air Handler EAE ___% / Boiler ___%AFUE / Temp reset ___ purge control ___	\$ -
Windows	9.25%			Primary Envelope Only ___ U- factor ___ / Replace single pane/no storm ___	\$ -
Geothermal Systems (Select)	9.25%			<b>Requires application</b>	
___GLHP Closed Loop Water to Air				___EER ___ COP	\$ -
___DX Direct Expansion Refrigerant				___EER ___ COP	\$ -
___Water to Water				___EER ___ COP	\$ -
<b>Total Project Cost</b>					\$ -
<b>Amount to be Financed</b>					\$ -

100% of work being financing shall apply to qualifying measures as listed above. Non-listed work directly related and necessary to the installation of the listed qualifying measures may be financed along with the qualifying measure at the applicable interest rate.
